Activities in resort							
Cycling	Cross country skiing	Golf	Mountain-Biking	Riding	Sailing	Tennis	

St. Moritz Chalet

A fabulous family **St. Moritz Chalet** is a first-time luxury **St. Moritz Chalet** set in the charm and tranquillity of the small and family-friendly village of BEVER (pop. 700), just 15 minutes north away from the bright bustle of the legendary resort of **St. Moritz**. Noted as a starting point for romantic winter hikes, extended cross-country skiing and tobogganing, Bever is in the heart of a wide high valley and this notably modern **Chalet** is a standout for interesting architecture and prime location. The chalet's cubic design is made with local stone and the property nestles against a hill with forested slope and pastures. Situated in a peaceful neighbourhood (other properties are close by on one side), this is a very beautiful **Chalet**, with plenty of space all around it that will be most appreciated by families with children as the garden is a delight all year round. Surrounded by an appropriately square and low cobbled wall the garden also contains a heated outdoor whirlpool surrounded by a woody, decked terrace that is arranged with sitting and dining areas. The interior is set with pine, on walls and floors to create a cosy charm, harmoniously offset by expansive glazing that opens the chalet to the scenic surroundings.

The **Chalet** is arranged on 2 levels and accommodates up to a total of 8 persons in its 4 contained and carved pinewood bedrooms; all but one (twin on ground floor, with separate bathroom) designed with open en suite bathrooms in-laid with marble, stone and glass. Further comfortable and tranquil relaxation will be appreciated and enjoyable in the extensive open plan living and dining area that is set under a very high ceiling (almost 6 metres!) and sliding pine doors that can separate the angular yet comfortably functional mod-con kitchen. In both Summer and Winter the wood deck garden will be a favourite gathering spot for adults and children, who will be able to safely play in the snow and the pool watched by chilled-out adults from the al fresco lounge and dining areas of the garden terrace, which has the addition of a barbecue, for

more family fun on warmer days, even in Winter.

Here is a luxury **Chalet**, which is also a unique Engadine Valley property. It is ideal for a family, or two, who wish for a more relaxing, quiet and private alpine retreat, to fully breathe the natural beauty of Engadine, minutes away from high street shops and world class ski slopes.
