Skiing/Snowboarding

Golf

Tennis

Booked from the 1.09.2021 till 31.03.2022

A short drive from St. Moritz, in the idyllic village of Maloja, a contemporary-style property surrounded by forest.

Designed by Swiss architect Ernst E. Anderegg, Chalet / Chesa has been redeveloped into a stylish contemporary-style property surrounded by nature. The property is located in the village of **Maloja**, which is located on Lake Sil, the largest and arguably most scenic of the Upper Engadin lakes. **Maloja** is the starting point for many trails, including the famous Engadin Skimarathon. A ski lift at Piz Aela transports skiers to the Maloja ski area at 2,000m, whilst the center of St. Moritz is approximately 15-minutes away by car.

Set over three floors and spanning 300m², Chalet / Chesa is comprised of the main house with four double bedrooms and an additional apartment with a further double bedroom. The apartment is directly connected to the main house but has its own external entrance. An inviting entrance hall on the ground floor leads into a large open plan kitchen with a breakfast table and bar. Upstairs on the first floor is a spacious living area with a fireplace, bar, and elegant dining area. Floor-to-ceiling windows provide a gateway to impressive mountain views which are best enjoyed from the terrace.

Chalet / Chesa is able to accommodate 10 adults and two children across five double bedrooms. On the ground floor is a large master bedroom with en-suite bathroom and a second double bedroom with a bathroom next door. Heading upstairs, there is a third double bedroom with en-suite bathroom and on the top floor a second master suite with a balcony, walk-in wardrobe, small library, and bathroom.
